configurations

Flow Wrapper 60 In Detail

Featuring a robust machine build, cantilever design, modular construction, high flexibility & performance, ease of operation & changeover, low maintenance cost.

This common platform has been used to develop multiple configurations that combined with a wide range of available accessories allow the FW-60 to be adapted to many different products as well as to the most demanding requirements in a wide range of production environments.

Our extensive experience also enables us to offer a wide number of accessories and feeding systems for a variety of different products.

Max. speed
200 bpm

Weight
1000 - 1500 kg
(2205 - 3307 lb)

Bag width
10 - 270 mm
(0.39" - 10.62")

Air pressure
6 bar
(15–18 CFM at 90 PSI)

Bag length
50 - 550 mm
(1.96" - 21.65")

Power supply
380-440 VAC / 3 Ph / 50-60 HZ

features

- Pusher conveyor
- Bottom reel holder
- Universal forming box
- Fin longitudinal sealing unit
- End cutting and welding unit
- Outfeed conveyor
- Transmission cabinet
- 10.4" Touch Screen (HMI)
- Easy changeover
- Modular construction
- Minimal maintenance requirements
- Automatic film splice
- Robust stainless steel build

options

- Poly configuration for polyethylene films
- Cold configuration for cold sealing films
- Box Motion configuration for hermetic sealing
- Robotic handling for right hand execution Integration with feeders
- Integration with ancillary equipment
